

Cube MX85-SP

Compact LED power for far field illumination

2 LED light functions

Working light and stylish X shape light

Lighting distance up to 110 meters

Increased far field illumination

Beam angle 13.5°

Exceptionally focused beam angle

Product datasheet

Powerful LED working lights for off-road use

Reliable technology and intense far field illumination: The LEDDriving Cube MX85-SP LED high beam brings the two together effortlessly. With four high-performance LEDs, the working light reaches a light distance of up to 110 meters. The working light ideally equips any car for far field illumination. With a light distance of 110 meters and a beam angle of 13.5°, work in off-road terrain can continue even at quite a distance from the vehicle. The 6000 Kelvin color temperature produces daylight conditions. The LEDDriving Cube MX85-SP working lights offer two light functions. One is the classic working light with up to 1250 lumen, and the other is the stylish X shape LED working light. Along with its compact format and durable craftsmanship, the LED working light scores as a smart enhancement to the vehicle's off-road style. Compact and robust with a long lifespan. When it comes to durability and ruggedness, exceptional quality is called for when using the retrofit working light in off-road conditions. The hard-wearing polycarbonate lens meets the toughest demands and reliably defies wind and weather in every terrain. The LED high beam is also protected against polarity. Full polarity protection automatically breaks the circuit in the event of over voltage, which ensures an especially long lifespan. The integrated driver and thermal management system also contributes to the search light's longevity light by preventing overheating during continuous use. Flexible thanks to excellent compatibility. Because the LEDDriving Cube MX85-SP working lights can be installed on many 12 volt vehicles, it is suitable for a wide range of applications. Whether on off-road or construction vehicles, on agricultural or recreational vehicles – the LED working light is a flexible and powerful way to shine light into the darkness. Important: It should be noted that the LED working light is only permitted for off-road use and is therefore not suitable as direct front-end illumination on roads. In accordance with EMC/EMI, the working lights are ECE R10 certified.

Product datasheet

Technical data

Product information

Order reference	LEDDL101
Application (Category and Product specific)	Working light application

Electrical data

Nominal voltage	12.0 V
Nominal wattage	20 W
Test voltage	13.5 V

Photometrical data

Luminous flux	1250 lm
Color temperature	6000 K
Light distance at 1lx	110 m

Dimensions & weight

Product weight	500.00 g
Length	85.0 mm
Width	57.0 mm
Height	121.0 mm

Lifespan

Lifespan Tc	5000 h
Guarantee	5 years

Additional product data

Connector to lamp	Wire Kit
-------------------	----------

Product datasheet

Capabilities

Technology	LED
------------	-----

Certificates & standards

Standards	ECE R10
Approval marks – approval	E6 approval
Type of protection	IP67

Country specific categorizations

Order reference	LEDDL101
-----------------	----------

Logistical data

Commodity code	851220009000
